

CONTINUOUS DISTANCE LEARNING LESSON

Lesson Title: Practicing Operations with Money

Grade: 6th Grade

Name: _____

Planning a Field Trip

You will be planning an educational field trip for your grade in Chicago. You will be collecting information on the pricing of transportation, tickets and lunch. Final presentations of your field trip will be made to a small group of your peers.

There will be 61 students and 9 adults going on the field trip. Every student AND adult must be accounted for with transportation, ticketing and lunch.

My Field Trip Destination: _____

Transportation

Using the link below, fill out the form on the right side of the web page. Make sure you:

- Choose "Round Trip"
- Pickup Address: (your school address)
 - Depart Date: (choose any school day)
 - Depart Time: (choose a time in the morning during the school day)
- Second Stop: find the address of your field trip destination
 - Depart Date: (choose same school day as before)
 - Depart Time: (make sure we get back to school before 3:15 pm)
- Enter total number of people
- Take a screenshot
- Click "Search"

Field Trip Destination

You will be choosing a field trip destination from the list below. These have been pre-approved because they have ticket pricing on their websites. Do not create an account on these sites. If they don't have student group prices listed, just use the single ticket pricing option. Some sites may provide student discount pricing - if this

information is available, use it! You have the option of choosing a field trip destination that is not listed below. Ticket prices have to be available on the website. The field trip experience must be educational.

- Shedd Aquarium
